

Induction foot

For induction generators with separate air filter for electronics cooling, removable without the need for a tool. Splashproof The generators are supported on guide rails and can therefore be removed for maintenance and are easily accessible.

- Generators arranged in the cooking suite substructure
- Each hob is supplied by its own generator.
- Sophisticated technology based on many years of experience in the production and development of our own appliances
- Temperature monitoring of power electronics
- Washable CNS grease filter, easy to dismantle
- No air short-circuiting due to optimum cooling air routing

Technical data:

Dimensions: 250 x 450 x 560 mm
 350 x 450 x 560 mm
 350 x 250 x 560 mm
